

CLASSROOMS OF CULTURE FUND

TERMS AND CONDITIONS

These terms and conditions apply to schools, youth centres and other types of educational institutions that are applying for and using funding through the Grow Hope Foundation's Classrooms of Culture Fund. By submitting an application, the school, youth centre or other educational institution (organisation) agrees to these terms and conditions.

Applications

The application process is outlined at www.growhope.org.au/classroomsofculturefund. Organisations seeking funding must first obtain a quote for their desired incursion from Wanyara by submitting an enquiry at www.wanyara.com.au/contact-us.

Information provided by an organisation in their funding application must be truthful and factual. An individual completing an application on behalf of an organisation must be an authorised representative of their stated organisation.

Grow Hope reserves the right to accept or reject any application.

Funding

Grow Hope will not provide any money directly to the applying organisation upon a successful application. Rather, Grow Hope will cover its agreed portion of the incursion cost by transferring the necessary funds to Wanyara upon completion of the incursion. These funds are used exclusively for the purpose of organising and delivering a Wanyara incursion at the organisation, and are not redeemable by the organisation for money.

Privacy of your information

When making an application through the Classrooms of Culture Fund, the organisation provides information about the organisation and the organisation contact. These details are kept safe and private. They are used to assess the application, contact the organisation about its application, and report on the funding provision.

We may sometimes use the organisation's contact details to send you information about other Grow Hope activities. If you don't want to receive such emails, you can unsubscribe at any time.

Photography

Organisations that receive Grow Hope funding to hold a Wanyara incursion at their organisation agree to send Grow Hope (at least one) photo from the incursion for use in Grow Hope's communications (e.g., newsletter, social media). Multiple photos are much appreciated.

A staff member at the organisation will take the photo and email it to classroomsofculture@growhope.org.au following the completion of the incursion. For example, the photo may be of Wanyara's presenters interacting with students, of students undertaking activities, of artwork they have created etc. Staff should take care to comply with their own organisation's privacy and social media policies.
